Welcome to our July newsletter,

We had the great pleasure of attending two exhibitions earlier in the year. The first was in May at the NEC in Birmingham where we exhibited at the Packaging & Innovations & Empack 2022. It was a fantastic show and a pleasure to meet so many people.

Our clever, plastic free, environmentally friendly [eLok](#) pack was recognised in the top ten most innovative products at the exhibition! We were amongst some incredible inventions and delighted to achieve **2nd place** overall.

We were able to show case our [eLok](#) packing with two great products from two passionately green companies; if you haven't tried them yet, we highly recommend both [NOBL Thirst](#) and [Two Farmers!](#)

A big shout out to a lovely small business near our Milton Keynes head office [Kates Bakes](#) who baked and supplied the cupcakes that were packed in our direct food [BRCGS](#) accredited in-house [Window patch Box](#) – they were delicious!

And then we went to Germany...

In June, two of our team took an environmentally friendly drive in an electric car out to Hamburg, to attend the World Travel Catering & Onboard Services Expo (WTCE) to showcase our exclusive [skytidy®](#) product, proudly manufactured in our UK plants. In our quest to reduce the use of plastic in the skies, our skytidy® product range has been developed and manufactured utilising recyclable materials from FSC® sustainable sources.

BRCGS A Rating for the Reedbut Group

After an intensive auditing process, we did it! We achieved the [BRCGS global standard](#) for the supply of packaging into the food industry. The **A** rating against Issue 6 includes direct food packaging!

The BRCGS certification enables our customers to demonstrate to their customers, their commitment to food safety while increasing confidence in their brand. For food packaging ideas and inspiration, take a look at our range of [Window Patch Boxes](#) which create a food safe barrier eliminating the need for bags, visually enhances your product and, reduces packaging waste. If you're looking for ways to transport and/or present fresh produce, you will love the [Food Retail Trays](#). Bespoke shelf ready trays are the ideal way to transport and present fresh produce, and as they are bespoke, they not only give you the perfect fit every time, they can be plain or printed as you require.

Well done to all the team for making this happen; it's a fantastic Reedbut Group effort from all the departments across our business and a result of a lot of hard work!

If you need direct food packaging we're ready to help!

Work with a Winning Team!

Back in April, we were delighted to receive an award from Raja UK at their supplier day, which had been delayed since 2021. After a day of presenting to their teams, we were presented with an award for Customer Experience.

This is great recognition for the Reedbut Group team who consistently deliver excellent customer experience and further reassurance that when you buy directly from us the manufacturer, not only do you enjoy factory floor pricing; you will receive continuous, award-winning personal service!

Step into Christmas!

There are now only 4 months until the start of the busiest shopping period! So where ever you are in the supply chain;

Order your Corrugated Packaging Now!

From [eCommerce](#) to [industrial & protective](#), [letter box size](#) to [pallet](#) ready, with three manufacturing plants operating 24/5, ordering now will guarantee that you have the boxes and packaging you need to meet demand. Even that jolly old Elf placed his order after reading Part I of our "Getting Ready for the Busy Season". You can read this by clicking here <https://www.linkedin.com/feed/...>

Meet the Team

As part of our Meet the Team series, we chat to Tony Waddell and learn more about his role with us and what he enjoys doing when not busy working on the CAD table, listening and working with customers and driving innovation at the Reedbut Group.
