## The new and improved eLok

Our design team have been working hard to rework and improve the construction of our exclusive **eLok** box!

The new and improved eLok design includes an extra strong self-locking mechanism that's easier to put together. When the box is closed, it is impossible to open it again without destroying the box unless the opening panel is used.

All this means that not only does the new eLok have improved tamper resistance and tamper evidence, but it can be assembled even faster

than before with maximum security for your products!

## WTCE 2023

There's still time to register and attend the **World Travel Catering & Onboard Services Expo 2023**, where we'll be exhibiting our exclusive skytidy® range.

Find us at Stand 1A97 at Hamburg Messe, where you can meet the team and explore the full collection of skytidy® products including our trash compactor boxes, cardboard trolley trays, and new oven trays. This will be the second year running that we've attended this fantastic show, and we can't wait to see you all there!

## A brand new look for Sonatest

*"From the initial design phase to the final product, they worked closely with us to ensure we were fully satisfied with every aspect of the box."*

**Chris Dix, Warehouse and Logistics Manager for Sonatest**

Learn more about how we transformed Sonatest's packaging in our latest case study! We're very proud to share the work we've done in creating a more compact, sustainable, bespoke box for this business.
